

Let's connect...

Are you looking for a job where you can contribute to the continuing growth of a company that is expanding rapidly? Then don't hesitate to carry on reading!

Who are we?

BKM-Orange has been part of Orange Belgium since 2019 and provides quality ICT solutions in 4 areas. Unified Communications & Collaboration (UCC) solutions, IT solutions, Document & Visual solutions and Connectivity solutions. With more than 25 years of experience, we have grown into a reliable benchmark on the market. Across our offices in Hasselt, Steenokkerzeel and Ghent, our 230 specialist staff with experience and expertise, provide the best service to our 16,000 customers every day.

'We connect. We care.' That's why we do our utmost every day. With the right specialist knowledge and using the latest technologies, BKM Orange will relieve you of all your company's time-consuming ICT issues. As their trusted ICT advisor, we guide our customers through their digital transformation.

Would you like to strengthen our team? For the Flanders/Wallonia region we're looking for **two:**

WINTEL SYSTEMS ENGINEERS

What do we expect?

- We expect you to be able to manage the server infrastructure at the client's site and our own datacentre and to provide support and guidance in the area of performance and service monitoring, back-up operations and software upgrades and patches;
- And to support current projects and system upgrades;
- You'll see to it that the systems meet the compliance and security requirements and assist with the assessment of audits;
- You'll be involved in the technological aspects and developments of our business, working closely together with your colleagues;
- You'll be expected to follow up projects with clients on your own initiative and to take the technical lead in this;
- You'll cooperate on continuously improving the quality of our service;
- You'll support the pre-sales team in their responses to calls for tender by offering technical expertise;

- You'll support the Service Desk technicians at the second and third levels;
- You'll contact suppliers to resolve problems;
- You'll communicate and report in a structured manner to in-house and external clients and to your manager on progress of projects.

Who are we looking for?

- You hold a bachelor's degree in information technology or a related discipline;
- You preferably have a Microsoft qualification;
- You have hands-on experience in server management with a sound knowledge of MS Server technology;
- You have a good knowledge of AD, Office 365, Azure, VMware infrastructure, SAN and NAS storage management and capacity planning, back-up and recovery solutions and management of mobile devices.
- You have a good overall view of IT security risks and vulnerabilities;
- You work in a structured, problem-solving way, autonomously and pro-actively;
- You have a "can do" attitude, you're tenacious, enthusiastic and you're a good communicator;
- You are both results- and action-oriented;
- You speak and write fluent Dutch, French and English.

What are we offering you?

- The chance to form part of a strong, solid organisation;
- With over 16,000 customers, BKM-Orange is one of the biggest providers of ICT solutions and services in the Belgian market;
- We invest in quality training for our employees. This keeps you up to date with the latest technologies in the market and helps you grow professionally;
- A full-time job of indefinite duration;
- We offer you an attractive salary package with extra benefits over and above the legally obligatory ones;
- A challenge!
